You can get a copy of the standard contract by contacting us (see contact details in section 13).

## 9. Profiling and automated decision-making

### Profiling

Profiling is a form of automated processing of your personal data to evaluate certain personal aspects relating to you to analyse or predict aspects concerning, for example, your economic situation, personal preferences, interests, reliability, behaviour, location or movements.

We use profiling and data modelling to be able to offer you specific services and products that meet your preferences, prevent money laundering, determine prices of certain services and products, prevent and detect fraud, evaluate the likelihood of default risk and value assets and for marketing purposes.

### Automated decision-making

With automated decision-making, we use our systems to make decisions without any human involvement on the basis of the data we have about you. Depending on the specific decision, we might also use information from public registers and other public sources.

We use automated decisions, for example, to approve loans, to prevent and detect money laundering and to prevent and detect fraud. Automated decision-making helps us make sure that our decisions are quick, fair, efficient and correct, based on what we know.

In relation to loans, we consider information about your income, your expenses and how well you have kept up on payments in the past. This will be used to determine the amount we can lend you.

In relation to the prevention and detection of money laundering, we perform identity and address checks against public registers and sanctions checks.

You have rights relating to automated decision-making. You can obtain information about how an automated decision

was made. You can ask for a manual review of any automated decision. Please see section 11, "Your rights" and "Automated decision-making".

## 10. For how long do we store your personal data?

We keep your data only for as long as it is needed for the purpose for which your data was processed

When your relations with us have terminated, or when the customer relationship with the business customer with which you are affiliated has terminated, we normally keep your personal data for another five years. This is due primarily to our obligations under the Danish Bookkeeping Act, the Danish Anti-Money Laundering Act and requirements from the Danish Financial Supervisory Authority. In certain circumstances, we keep your information for a longer period of time. This is the case, for example,

- if your personal information forms part of the calculation of our capital requirements, then we may keep your information for up to 20 years
- if the statute of limitation is 10 years, then we may keep your data for up to 10 years
- if required due to your affiliation with our business customer
- if required due to other regulatory requirements

If the company with which you are affiliated, as a potential customer, has asked for an offer for a loan, lease agreement or another product or service, but refuses the offer or for other reasons does not become a customer, personal data will normally be stored for six months, but may for some purposes be stored longer to comply with other legal obligations, for example under the Danish Anti-Money Laundering Act.

Surveillance videos are deleted 30 days after they were made in accordance with applicable law. In certain circumstances, and in connection with a specific case, the information may be stored for a longer period.

- For the performance of a task carried out in the public interest.
- For establishment, exercise or defence of legal claims.

### **Restriction of use**

If you believe that the data we have registered about you is incorrect, or if you have objected to the use of the data, you may demand that we restrict the use of the data to storage until the correctness of the data can be verified, or it can be checked whether our legitimate interests outweigh your interests.

If you are entitled to have the data we have about you erased, you may instead request us to restrict the use of the data to storage. If we need to use the data solely to assert a legal claim, you may also demand that other use of the data be restricted to storage. We may, however, be entitled to use the data for other purposes, for instance to assert a legal claim or if you have granted your consent to this.

### **Withdrawal of consent**

Where consent is the legal basis for a specific processing activity, you may withdraw your consent at any time. Please note that if you withdraw your consent, we may not be able

to offer you specific services or products. Note also that we will continue to use your personal data, for example to fulfil an agreement we have made with you or if we are required by law to do so.

### **Data portability**

If we use data based on your consent or as a result of an agreement, and the data processing is automated, you have a right to request a copy of the data you have provided in an electronic, machine-readable format.

### **12. Changes to this privacy notice**

We may change or update this privacy notice on a regular basis. In case of a change, the "effective from" date at the top of this document will be amended.
